Memorandum

To: Director

From: Superintendent, Yellowstone

Subject: Monthly Narrative Report for July 1963

General

Weather Conditions. Thunderstorms were frequent [illegible] summer days. The highest temperature recorded was [illegible] at West Yellowstone on the 22nd. The low temperature was [illegible] at Old Faithful on the 30th. Snow fell on the mountains July 26.

Increase or Decrease in Travel. A total of 635,[illegible] entered the Park during July, as against 641,07[illegible] for July [illegible]. This is a decrease of 0.9 per cent.

Inspections. Mr. Donald Young, Regional Solicitor [illegible] Denver, was assigned a four-week tour of duty in Y[illegible] and arrived July 5. The Solicitor's office paid all his [illegible]. Mr. Young observed the overall law enforcement [illegible] procedures in the Park. He will submit a report [illegible] vations, and recommendations.

George S. Morton, a training instructor from the [illegible] Office arrived July 7 to assist in planning employee [illegible].

Russell K. Grater, Supervisor, and Stephen T. Mather [illegible] Eastern Training Center, Harpers Ferry, West Virginia, [illegible] July 7 to study interpretive methods used in Yellowstone.

Thomas J. Allen, Special Assistant to the Director, arrived in the Park July [illegible] for a two-week survey of management [illegible] Yellowstone.

Dr. George C. Kuhle, International Cooperation, [illegible] arrived July 24 to set up future orientation program [illegible] students who are attending western colleges in the [illegible]

and who will arrive in Yellowstone sometime in September to observe wildlife management and general administration of the Park.

Special Visitors. Dr. William Klomparens, Pathologist, Manager Agricultural Chemicals for the Upjohn Pharmaceutical Company, Kalamazoo, Michigan spent July 3 and 4 in the Park with Superintendent John C. Dunn observing the White Pine Blister Rust Control Areas and antibiotic study plot results.

Mr. Dwight Wilmore, Director of the United States Travel Service, arrived July 5. The United States Travel Service emphasizes development of foreign travel to the United States. Travel to the United States is up 25% over 1962.

Mr. Frank Barry, Solicitor for the Department of the Interior arrived July 6. Mr. Barry was here two years ago to conduct a hearing on the zoning of Yellowstone Lake.

Lt. General Walter K. Wilson, Jr., Commanding Officer of the Corps of Engineers, Washington, D.C. was in the Park with his family July 6 and 7. They were interested in Yellowstone, its wildlife and fishing.

Mr. William Eddy, who produced a movie in Yellowstone Park last year for use in his work with the park system in Tanganyika, arrived on July 22 for a week's stay. Mr. Eddy is traveling under the auspices of the New York Zoological Society. Mr. Eddy's picture "Safari Yellowstone", made with a Nikon Eye, was shown as an informational program in Mammoth Amphitheater, July 23. This was an excellent picture of the Park and depicted wildlife and conservation efforts.

Mr. Eddy's mission was to discuss various African problems in connection personnel in parks which are having a number of African personnel in training program. He showed three different pictures in the Mammoth Campground on the evenings of July 22, 23, and 24. Respective subjects were (1) General Orientation of Africa; (2) Physical Orientation on the Wildlife in the African Parks; (3) Problems Related to Wildlife Management in Africa. The three pictures were excellent and many of us learned the history of Africa in a very pleasant and informative way.

Mr. Jack Glink, a professional photographer from Washington, arrived in the Park July 23 to make a picture of the Kenyan personnel, Triton Lalyanna Ajore and Moses Senoy Lolionya. Seasonal Naturalist Wayne Replogle accompanied them. Mr. Glink is with the African Wildlife Leadership Foundation which organization initiated the several summer programs which give small groups of African University students an opportunity to observe our National Parks and related programs.

On July 25, the Trail Riders of the Wilderness assembled at Jackson Lake Lodge for a two-week trip into Yellowstone National Park.

The Wyoming Highway Commission visited the Park and enjoyed [illegible] at Canyon Village July 31. Chief Engineer Gerald J. [illegible] this group while they were in the Park. Superintendent Harrison met with them the evening of July 31.

Dr. Irving Dorf, a professor from the Geology Department of Syracuse University is here again this summer to make additional studies of the area.

Howard Stagner, Chief of the Division of Natural History in the Washington Office is here to review the Interpretive Program.

Foreign Visitors. Mr. Edgard Castelnot, Director of the Department of Nature Protection, Museum of Natural History, [illegible], Belgium, and party were in the Park June 30, July 1 and 2.

Mr. E. K. Thatchamaraishji, a younger brother of the Maharaja of Dhewanger, arrived July 5 from India. He came to the United States primarily to attend the 10th International Congress of Zoology to be held in Washington D. C., August 20-27. He is sponsored by the American Museum of Natural History in New York, and is one of India's outstanding scientists. He is also an enthusiastic ornithologist. He and the Maharaja established the first farm in India at the time they still ruled their native state. The Park was designed specifically to provide protection for the Asiatic lion (then numbered at 300), the Black Buck, Indian Bustard and the Indian Tiger, which is now facing extinction. He is particularly interested in spending some time with Resource Management and in studying Park management methods in the field. Frank and John Craighead are heads in Thatchamaraishji while he is in Yellowstone where he is acquainting first-hand the work they are doing with the grizzly bear and elk. He hopes he may be able to apply similar methods and techniques to a study of the Indian Tiger.

The M. Jean-Claude Berrier photographic team of "Napoje Berrier" from France arrived July 7 for a week's stay. M. Berrier, a prominent French explorer-film maker, will spend his months in the United States making color documentary films which will be of interest to European countries. The films will emphasize our National Parks. This film will be used in 1000 cities of Europe during the coming 1963-64 lecture series to promote tourism brought about by the VISTE Philosophy. M. Berrier is traveling under the sponsorship of the United States Department of Commerce.

Mr. Lutfi Kantarci, Chief of the Foreign Leader Exchange Program of Turkey and Secretary General of the Chamber of Commerce of Izmir, Turkey, arrived July 2 and departed July 7. Mr. Caldwell's

principal interest was to observe the relations between the National Park Service and the Yellowstone Park Company, to see how a government agency deals with a representative of free enterprise and how the people of this country are the ultimate beneficiaries of such programs.

On July 18, Peter Loiyumae Ajore, Moses Sonny Loilemya and Joseph Meruto Mburuga, Game Wardens from Kenya and Saturumayo Kumaka Kahima, a Game Warden from Uganda, arrived in the Park. Peter Ajore and Moses Loilemya remained in Yellowstone while Joseph Mburuga and Saturumayo Kahima were transported to Grand Teton National Park for observation in that Park. These men are interested in obtaining practical training in the field of wildlife and recreational management. Peter Ajore and Moses Loilemya will leave Yellowstone on August 17, for Denver, Colorado. This program was arranged by the U. S. Fish and Wildlife Service.

Mr. Luis Alfredo Pinto, Bogota, Colombia, who is traveling under the Eisenhower Exchange Fellowships, Inc., arrived at Old Faithful Inn July 26. On July 27 he stayed at Pahaska, just outside the Park near the East Entrance.

Mr. Sylvester Ahwesa, Game Biologist, Game Department, Uganda Government, arrived July 14 for a week's stay. He is interested in observing wildlife research programs, game and range management, administration of Park areas, and activities during bombing seasons. The Department of Fish and Wildlife Service is responsible for Mr. Ahwesa's being in this country. While in Yellowstone he will study Park administration with special reference to management of wildlife and other natural resources as an attraction for tourists.

Special Activities. Mr. Gerald Pierce of the U. S. Geological Survey was in the Park on July 1 to discuss with the Chief Park Naturalist the possibility of placing three seismographs in the Park for earthquake studies of the Rocky Mountain region which is being carried on by the U. S. Geological Survey.

Biologists Howe and Setzer traveled to Butte to participate in the Grass Utilization Training Session sponsored by the U.S. Forest Service, July 11.

On July 14 and 15 a party of United States Senators, headed by Senator McGee of Wyoming, visited the Park including the Old Faithful and Lake areas. The party consisted of the following Senators: Bible, Nevada; Moss, Utah; Young, Ohio; Brewster, Maine; Kefauver, Tennessee; and McGee. The party was met at the Jackson Airport by Superintendent Garrison and Associate Superintendent Castellum of Yellowstone National Park, and Superintendent Fagergren of Grand Teton National Park, and taken to Yellowstone Lake for a boat trip, fishing, and lunch on Dot Island. Senators Kefauver and Brewster toured the Old Faithful area.

and the entire group visited the Trout Creek Dump in the company of Dr. John Craighead to get a first-hand glimpse and reason of the grizzly bear study now underway. During the Montana bright stay they were all subjected to seeing, personally, the intensive use of the Park by the American public. The party spent the night at Lake Hotel, ate an early continental breakfast and were escorted back to Jackson to board their 9:00 a.m. flight to Washington. Both Yellowstone Park Company and Hamilton Stores, Inc. participated in serving the party refreshments and lunch.

The Montana Wilderness Association conducted walks in the Park on July 14, 20 and 21. On the 14th, the group climbed Specimen Ridge to the petrified trees. On the 20th and 21st they camped overnight on a hike from Hellroaring to Blacktail. Government horses were used to transport damage across the creek. There were 13 participants including Biologist Robert C. Stone and family.

Benefits Productions Corporation crews toured the entire Park before attempting to make their film. The camera crew entered the Park July 17 for ten days to make a documentary film on Yellowstone -- aerial helicopter filming, general thermally areas, geyser basins, museums, Old Faithful, Yellowstone Lake, wildlife, and hiking. The film script is being prepared for the Yellowstone Park Company and Continental Oil Company for publicity purposes.

The second of the Summer Luncheons for all Park Service and Concessioner Ladies, both seasonal and Permanent, was held at Old Faithful Inn on July 13. The first luncheon was held at Mammoth Hotel on June 26.

The millionth visitor of the 1963 season entered the Park July 12, at West Entrance. Mr. and Mrs. Joe A. Sternberg and their two children, from 4119 Leeshire, Houston, Texas, received a complimentary pass to the Park and were officially welcomed by Assistant Superintendent Richard A. Nelson and representatives of the Park concessioners.

Superintendent's staff meetings were held July 5 and 12.

Conservation, Interpretation and Use

Interpretive Services. The Old Faithful Visitor Center was open to visitors from 8:00 a.m. to 10:00 p.m. Madison Junction Visitor Center from 8:00 a.m. to 8:00 p.m.

Interpretive Exhibits. An exhibit panel on the Cutthroat trout was prepared and erected at the fledgling pond that was re-established near the old Fish Hatchery building at Lake.

Research and Observation. On July 11, the South District Naturalist and Assistant South District Naturalist accompanied Dr. Irving Perf, paleobotanist from Princeton University, to the summit of Top Notch Peak. The area on the flanks of the mountain was found to contain abundant fragments of fossil wood and many fossil leaves.

On the Upper Terrace has been found one single plant of [illegible] characteristics; it is the Hyoscyamus niger (Black Henbane). This particular plant is the source of several dangerous alkaloids and is considered dangerously poison. The family, most abundant in the tropics, includes the familiar Irish potato, [illegible], nightshade, tobacco, and the common petunia.

Steamboat Geyser erupted three times in July:

July 5	8:20 p.m.
July 15	8:37 p.m.
July 30	12:15 noon

Starting with 1978, 18 eruptions of Steamboat have been observed.

The Madison River hydrobiological team has been active this month. Much effort has been applied to measuring the physical properties of the River. Heat absorption and radiation tests were conducted.

Mr. James Mann of North Texas State University continued his algae study in the Firehole Basin hot springs. He is primarily interested in sequential invasion of favorable habitats by specific algae.

Concessioners. Superintendent Garrison and staff attended the National Park Service-Concessioners monthly meeting held at Haynes, Inc., Mammoth, on July 17.

The bus trip from the base to the summit of Mount Washburn started July 1 at 8:00 a.m. Trips are every half-hour; last trip up at 4:00 p.m.

The Stevenson Island Fish Fry began operation July 21.

The Yellowstone Park Service Station at the junction of the Tower Fall and Beartooth Highway was opened July 1.

A new service has been established by Hamilton Stores, Inc. At Hamilton's Old Faithful store only, hikers camping equipment is available for rent by the day or by the week. If this service proves successful it will become available at other locations next season.

The final annual financial statements for the Yellowstone Park Service, Contract 14-10-0243-A32 was received, presented, our summary prepared, and all were forwarded to the Director and Regional Director on July 16.

At 4:30 p.m. on July 20, National Park Service officials, concessioner officials, and many others gathered to witness the christening of Yellowstone Park Company's new scenic cruiser, THE [illegible] II, at Grant Village styrofoam dock. Invocation was by the Reverend John Lee. Mrs. William M. (Dean) Michels, christened the new cruiser which was named in her honor.

Wildlife. Wildlife populations and range conditions in Hayden Valley were observed by Park Biologists July 29-30. Photo plots last taken in 1940 were located and re-photographed.

Bear Incidents:

	Through July 1963	Through July 1962
Bear Injuries	19	12
Bear Damages	104	43
Bears killed for control	4	32
Bears killed by accident	10	4
Bears shipped to zoos	2	-

Bear damage incident increase over last year is about the same, one-half times.

A fine specimen of a female grizzly bear in her prime, was enjoyed by Dr. Hanley Young, Los Angeles City Zoo, on July 1. This bear was taken from the Old Faithful area.

Elk: July 9-10, Dr. Robert Eng, Chief of Research for Montana State Fish and Game Department, visited the Park. Full cooperation of of Montana Fish and Game in the biological collections was expressed to Associate Superintendent Carrithers. Biological collections for the elk reproduction program were made by July 1, 2, 22 and 23. Eight elk were taken. Collections will be taken every other week until full.

Golden Eagle: A Golden Eagle was seen at Thermal Trail Ranger Station on July 7, and one was observed at Cache Creek on July 18.

Lynx: North District Ranger Rohlin sighted a lynx on July 6 where Blacktail Creek enters the Yellowstone River.

Moose: Several moose have been seen frequently in many areas of the Park.

Otter: A family of otters, two adults and four young, have been observed near the junction of the Firehole and Gibbon Rivers.

Ranger Service. Considerable time was spent assisting disinfestation visitors in the Park; assembling for boat patrol, and regular patrols.

Forest Fire Protection. A total of 17 fires were suppressed during the month. The largest fire was 3.5 acres in the Yellowstone area. The helicopter was on duty the entire month.

Law Enforcement. A total of 35 persons were tried before U. S. Commissioner James W. Brown.

Soil Conservation Service. Soil moisture readings were taken for the Soil Conservation Service by the Northwest District Ranger.

Geological Survey. The Madison and Lower Gibbon water gauge was read weekly by Ranger personnel for the U. S. Geological Survey.

Forest Insects and Disease Control. A six-man bilator work reconnaissance crew started work in the Clover Creek area July 1.

Public Affairs

Publicity. On each Thursday the Yellowstone Weekly News was issued to keep employees, concessioners and other currently informed of Park happenings.

Six press releases were issued: [illegible] record travel for a single day; [illegible] violations; [illegible] visitor; group watching eruption of Steamboat Geyser; and [illegible] Steamboat Geyser.

Religious and Chapel Use. Services for all faiths were held during the month, as scheduled, throughout the Park. Mr. Morton West from New York City, Director, [illegible] Ministry in the National Parks, was in Yellowstone the week of July 1.

Roads. The Lake-West Thumb road is paved with a [illegible], thus eliminating the dust and hole problem. Complaints have ceased about this project.

Campgrounds. All campgrounds have been filled to capacity almost every night during the month.

The Whiskey Flats Overflow Campground was opened July [illegible] for trailers and pickup campers.

A septic tank disposal unit for house trailers was installed in Madison Campground and was ready for use July 24. [illegible] have been favorable.

Maintenance. Gravesite: Bessie Cockbottom, born September 24, 1888, died July 12, 1903. The area has been cleaned, and new rails have been placed around the grave located on Snake River behind the bars.

Contracts.
